Volume 42: Subject Index

Abbreviations:—"(L)" refers to letters to the Editor

Acetaldehyde, serum proteins modified by, correlations with biochemical variables in heavy drinkers, **295**
Acinetobacter calcoaceticus in respiratory care unit, identification using protein profiles, **853**
Adenocarcinoma, colorectal, bowel resection margins in, routine examination of, justification for?, **1040**
——, endometrial, and normal cyclical endometrium, binding of peroxidase-labelled lectins to human endometrium in, **140**
—— *in situ* of endocervix, nucleolar organiser regions in, **1276**
Adenoid cystic carcinoma of breast, immunohistological characterisation of, **470**
Adenoma, gastric, lysozyme and mucins in, **827**
——, ——, ultrastructural study of 2 subtypes of, **352**
——, pulmonary, as variant of sclerosing haemangioma of lung, case of (L), **1222**
Agglutination test, direct, and other assays for antibodies to *Toxoplasma gondii*, **536**
AgNOR counts, inability to differentiate between bronchial carcinoid tumours and small cell carcinoma of bronchus (L), **1003**
—— method, value in prediction of recurrence of meningioma (L), **1002**
AgNORs and proliferative index in glandular and squamous carcinomas of cervix (L), **441**
——, demonstration in paraffin wax sections, improved silver technique for, **992**
—— in adenocarcinoma *in situ* of endocervix, **1276**
—— in diagnosis of serous and mucinous ovarian tumours (L), **1311**
—— in squamous tumours of pharynx and larynx (L), **218**
——, useful for differentiation between follicular hyperplasia and follicular lymphoma?, **1267**
AIDS, diagnosis of intestinal microsporidiosis in patients with (L), **885**
—— or HIV-1 infection, cytomegalovirus infection in gastrointestinal tract in, **1055**
Air dried smears, rehydration of, application in body cavity fluid cytology (L), **113**
Alkaline phosphatase and anti-alkaline phosphatase. *See* APAAP
Amyloid fibril protein-AL, detailed typing by amino acid sequence analysis, subcutaneous abdominal fat biopsy specimen for, **817**
Anaemia, minimal or non-existent, primary acquired sideroblastic erythropoiesis in subjects with, 6 cases, **56**
——, pernicious, and upper gastrointestinal carcinoid tumours, mucosal argyrophil endocrine cells in, **371**
——, ——, circulating gastric antibodies in, longitudinal study of, **1092**
Anaerobic and microaerophilic clinical bacteriology, evaluation of Anoxomat technique for, **640**
Androgen receptors, prostatic, microassay for, correlation with quantitative histological assessment, **322**
Angiitis, granulomatous, allergic. *See* Churg-Strauss syndrome
Angioimmunoblastic lymphadenopathy associated with thyroid disease, 2 cases (L), **668**
Angiolymphoid hyperplasia with eosinophilia, aetiological role for immunisation in?, **944**
Angiotensin converting enzyme in serum as marker in Lennert's lymphoma (L), **1112**
Anoxomat technique, evaluation for anaerobic and microaerophilic clinical bacteriology, **640**
Anti-actin, monoclonal, as megakaryocyte marker in paraffin wax embedded bone marrow biopsy specimens, **982**
Antibiotics, fever resistant to, association with herpes simplex virus infection in neutropenic patients with haematological malignancy, **1255**
Antibodies against CD3 peptide, detection of T cells in paraffin wax embedded tissue using, **1194**
——, gastric, circulating, in pernicious anaemia, longitudinal study of, **1092**
——, IgM, to *Toxoplasma gondii*, ELISAs for detection of, comparison of 6 commercial tests, **1285**
——, ——, *Toxoplasma* specific, ELISA for, 5 commercial kits, **653**
——, ——, —— ——, IgM immunosorbent agglutination assay for detection of, assessment of, **1291**
——, monoclonal. *See* Monoclonal antibodies
—— to cytomegalovirus in renal allograft recipients, correlation with isolation of virus, **1070**
—— to *Escherichia coli* 0157 in haemorrhagic colitis and haemolytic uraemic syndrome, **973**
—— to 4 *Aspergillus* species, comparison of immunodiffusion and ELISA for, **1215**
—— to intrinsic factor, tests for, **210**
—— —— —— ——, total, type I, and type II, ELISA for detection of, **307**
—— to *Toxoplasma gondii*, direct agglutination test and other assays for, **536**
Antibody, IgM, to *Toxoplasma*, biotin-labelled antigen screening test for, **206**
——, monoclonal. *See* Monoclonal antibody
—— response, class specific, to gonococcal infection, **72**
—— to *Pneumocystis carinii*, testing for, **865**
Anti-bromo-deoxyuridine monoclonal antibody, *in situ* demonstration of tissue proliferative activity using, **820**
Anticardiolipin antibodies, lupus anticoagulant, and HIV in haemophilia, **629**; *Erratum*, **896**
Antigen, CD43, detected in formalin fixed tissue by antibodies MT1, DF-T1 and L60 (Leu-22), **953**
——, HLA-DR, aberrant expression in diffuse sclerosing variant of papillary carcinoma of thyroid (L), **1309**
——, monocyte/macrophage associated, detection by monoclonal antibody (KP1) in tissue sections, **414**
——, staphylococcal toxic shock syndrome toxin, in sudden infant death syndrome, immunohistological localisation of, **935**
——, tissue polypeptide, in serum in pancreatic cancer and other gastrointestinal diseases (L), **555**
Antigenaemia and antibody response in HIV infected patients, patterns according to clinical state, **282**
Antigens, *Campylobacter pylori*, evaluation of 3 preparations for screening sera from patients undergoing endoscopy, **723**
——, cytomegalovirus, detection of, and DNA in tissues fixed in formaldehyde, **749**
——, membrane, immunoperoxidase detection in frozen sections, improved method for, **875**
——, papillomavirus and *c-myc*, expression in normal and neoplastic cervical epithelium, **46**
Antiphospholipid syndrome, familial occurrence of, **495**
Antithrombin III, ELISA for measurement of, **985**
Antral mucosa, lymphoid follicles in, immune response to *Campylobacter pylori*?, **1269**
Aortitis caused by β-lactamase producing *Haemophilus influenzae* type b, case of (L), **438**
APAAP immunocytochemical technique, automation of, **106**
—— technique, use on paraffin wax embedded bone marrow trephines, **1201**
API 20 STREP system for identification of *Listeria* species, evaluation of, **548**
—— 20E in identification of Enterobacteriaceae, comparison with Sensititre Autoidentification System, **649**
—— 20NE and screening tests for identification of *Pseudomonas pseudomallei* in clinical practice, **645**

—— —— and Sensititre Autoidentification systems for identification of *Pseudomonas* spp (L), **1113**
Appendicitis, tropical, pathology of, **1169**
Argyrophilic nucleolar organiser region(s). *See* AgNOR(s)
Arteritis, giant cell, of tongue associated with squamous cell carcinoma (L), **1001**
Aspergillosis of nose and paranasal sinuses, case of, **123**
Aspergillus, 4 species of, antibodies to, comparison of immunodiffusion and ELISA for, **1215**
Aspirates, fine needle, from benign and malignant breast lesions, semiquantitative analyses of, **28**
Aspiration biopsy cytology, fine needle, of breast lumps in outpatients, rapid reporting on, **906**
—— —— ——, —— ——, —— ——, success of, influence of cancer histology, **733**
—— —— ——, —— ——, of thyroid nodules, 3 years' experience, **23**
—— —— ——, —— ——, percutaneous, of pancreas, advantages and pitfalls, **341**
Asthma, bronchial, fatal, bronchial gland duct ectasia in, association with interstitial emphysema, **1026**
Aural polyps as predictors of underlying cholesteatoma, **460**
Autoimmune haemolysis, erythrocyte autoantibodies, and myelodysplastic syndromes, **1088**
Automation, effect on prothrombin time test in NEQAS surveys, **97**
—— of APAAP immunocytochemical technique, **106**
Axons, immunoperoxidase staining for frozen section diagnosis of nerve biopsy specimens, **551**

B and T cell lymphoid leukaemia, chronic (mature), classification of, proposals for, **567**
Bacteria, adhesion to silicone catheter material and barium sulphate as radio-opacity agent (L), **1226**
—— of respiratory tract, histamine synthesis by, possible role in pathogenicity, **516**
——, spiral, demonstration by carbolfuchsin staining in gastric mucosa (L), **1004**
——, spiral-shaped, in gastric antrum, urease positive? (L), **216**
Bacterial flora of infected pilonidal sinuses, **1140**
—— peritonitis, Gram negative, detection in recipients of CAPD and limulus amoebocyte lysate assay (L), **1115**
Bacteriological sampling of postmortem rooms, **682**
—— typing schemes, efficient selection of tests for, **763**
Bacterium, spiral, new (*"Gastrospirillum hominis"*) in gastric mucosa, **585**
Barium sulphate as radio-opacity agent and bacterial adhesion to silicone catheter material (L), **1226**
Basal cell carcinoma, pigmented, fluorescence caused by formaldehyde in (L), **1002**
Basement membrane markers, use in tumour diagnosis (*Review*), **449**
Basophils in acute myeloid leukaemia, **785**
Bence-Jones protein, excreted, isoelectric point of, negative association with renal impairment in myeloma, **59**
Bernard-Soulier syndrome and immune thrombocytopenia, differentiation by immunostaining of peripheral blood, **1296**
Betapropiolactone for disinfection of fresh tissue without impairment of antigenicity, and application to HIV positive tissue, **318**
Bile ducts, extrahepatic, benign and malignant sclerosing lesions of, laminin expression in, **927**
Biliary cirrhosis, primary, pseudohyponatraemia, and hypercholesterolaemia, case of, **167**
Biochemical and haematological measurements in serum, diurnal variations in, **172**
—— predictors of short term mortality in elderly residents of chronic care institutions, **1241**
Biopsy specimens, enzyme histochemical analysis of, new approach to, **767**
Biotin and digoxigenin labelled probes, interphase cytogenetics using, in detection of human and papilloma virus nucleic acids in individual nuclei, **601**
—— —— —— —— ——, —— —— ——, —— —— of HPV16 in CaSki cells, **592**
Biotin-labelled antigen screening test for toxoplasma IgM antibody, **206**
Bismuth subcitrate, colloidal, sensitivity of *Campylobacter pylori* to (L), **216**
Bladder, carcinoma of, transitional cell, invasive, squamous metaplasia in, clinical importance of, **250**
——, —— ——, undifferentiated, small cell, morphometric and flow cytometric analysis, **1032**
——, pseudomembranous trigonitis of, hormonal aetiology, **922**
Bleeding. *See* Haemorrhage
Blood coagulation. *See* Coagulation
—— counter, Coulter STKR, in detection of abnormalities of differential count, **772**
——, peripheral, immunostaining of, for differentiation of Bernard-Soulier syndrome and immune thrombocytopenia, **1296**
—— platelet. *See* Platelet
—— samples, gamma irradiated, unsuitability for haemostatic evaluation of high risk patients (L), **667**
—— vessels, small, disease of, in allergic granulomatous angiitis (Churg-Strauss syndrome) (L), **1001**
——, whole blood procoagulant activity in breast and colorectal cancer, **489**
Body cavity fluid cytology, application of rehydration of air dried smears in (L), **113**
Bone histology in young adult osteoporosis, **391**
—— marrow aspiration for diagnosis of acute myeloid leukaemia, plastic-embedded core biopsy as complement to, **300**
—— —— biopsy specimens, paraffin wax embedded, monoclonal anti-actin as megakaryocyte marker in, **982**
—— —— fibrosis in childhood acute lymphoblastic leukaemia, **1253**
—— —— invasion by neuroblastoma, detection of, monoclonal antibodies for, **422**
—— —— transplantation or chemotherapy for haematological disease, carriage of *Candida* spp and *C albicans* biotypes in patients undergoing, **1259**
—— —— trephine biopsy specimens, collagenase digestion of, cell suspensions from, **427**
—— —— —— immunotyping in peripheral T cell lymphoma, value of, **403**
—— —— trephines, paraffin wax embedded, usé of APAAP technique on, **1201**
—— trephine instruments used for quantitative histomorphometry, comparison of 2 mm and 7 mm diameters, **213**

Year Book of Infectious Diseases 1989, 1989, **1312**
Books: new titles, **336, 672, 896, 1232**
Bowel resection margins in colorectal adenocarcinoma, routine examination of, justification for?, **1040**
Brain damage in fatal head injury in children, **18**
Breast, carcinoma of, and colorectal cancer, whole blood procoagulant activity in, **489**
——, —— ——, cellularity in, assessment and relation to oestrogen receptor content, **1166**
——, —— ——, cystic, adenoid, immunohistological characterisation of, **470**
——, —— ——, histopathology in young women in relation to use of oral contraceptives, **387**
——, —— ——, metastatic to gallbladder, case of (L), **1223**
——, —— ——, monoclonal antibody staining in, critical evaluation of, **810**
——, —— ——, mucinous, oestrogen receptors in, immunohistological study with paraffin wax sections, **902**
——, —— ——, oestrogen and progesterone receptors of, imprint cytology in immunocytochemical analysis of, **1043**
——, —— ——, prostaglandin F2α concentrations in, prognostic value of, **1046**
——, fine needle aspiration of, success of, influence of cancer histology, **733**
—— lesions, benign and malignant, fine needle aspirates from, semiquantitative analyses of, **28**
—— lumps, fine needle aspiration in outpatients, rapid reporting on, **906**
Bromide partition test, false positive result in case of lymphomatous meningitis (L), **113**
Bronchial carcinoid tumours and small cell carcinoma of bronchus, inability of AgNOR counts to differentiate between (L), **1003**
—— gland duct ectasia in fatal bronchial asthma, association with interstitial emphysema, **1026**
Bronchiectasis and primary ciliary dyskinesia, orientation of respiratory tract cilia in, **613**
Brown adipose tissue activity in pyrexial cases of cot death, **1153**

CA 125, immunoreactive determinants of, in women with endometriosis, **1272**
Cachectin. *See* Tumour necrosis factor
Calcification of umbilical artery, 5 cases and 2 distinct lesions, **931**
Calves, ischaemia of, controlled, leucocyte behaviour in, **1083**
CAM 5.2 and anti-CD1a reactivity in lymph nodes and gastrointestinal tract epithelium, association between, 271
Campylobacter in gastric biopsy specimens, cold Ziehl-Neelsen stain for (L), **1309**
—— *pylori*, acute gastritis in child associated with (L), **779**
—— —— and capillary dilatation, prevalence in gastric mucosa in portal hypertension, **919**
—— —— and duodenal gastric heterotopia (L), **1111**
—— —— and other spiral bacteria, demonstration by carbolfuchsin staining in gastric mucosa (L), **1004**
—— —— antigens, evaluation of 3 preparations for screening sera from patients undergoing endoscopy, **723**
—— —— colonisation and active gastritis, topographic association between, **834**
—— ——, detection in stomach tissue by DNA *in situ* hybridisation, **995**
—— —— infection in biopsy specimens of gastric antrum, laboratory diagnosis and estimation of sampling error, **727**
—— —— —— of duodenum and gastric metaplasia in chronic renal failure, **348**
—— ——, lymphoid follicles in antral mucosa immune response to?, **1269**
—— ——, sensitivity to colloidal bismuth subcitrate (L), **216**
—— ——, survival in artificially contaminated milk (L), **778**
—— ——, ultrastructural localisation of urease in outer membrane and periplasm of (L), **778**
Campylobacter-like organisms and heterotopic gastric mucosa in Meckel's diverticula, **132**
—— —— in Meckel's diverticulum? (L), **1111**
Candida spp and *C albicans* biotypes, carriage in patients undergoing chemotherapy or bone marrow transplantation for haematological disease, **1259**
Candidiasis, oral, association with diabetic control, **502**
Capillary dilatation and *Campylobacter pylori*, prevalence in gastric mucosa in portal hypertension, **919**
Carbolfuchsin staining for demonstration of *C pylori* and other spiral bacteria in gastric mucosa (L), **1004**
Carcinoid tumours, bronchial, and small cell carcinoma of bronchus, inability of AgNOR counts to differentiate between (L), **1003**
—— ——, upper gastrointestinal, and pernicious anaemia, mucosal argyrophil endocrine cells in, **371**
Carcinoma, basal cell, pigmented, fluorescence caused by formaldehyde in (L), **1002**
——, colonic, and intestinal type gastric cancer, association between, undifferentiated cells in gastrointestinal mucosa inferring *(Abstract of ACP Research Award 1988)*, **523**
——, colorectal, association between invasiveness, inflammatory reaction, desmoplasia and survival in, **162**
——, hepatocellular, DNA from, HBV sequences from, *in vitro* amplification using polymerase chain reaction, **840**
——, histology, influence on success of fine needle aspiration of breast, **733**
—— of bladder, transitional cell, invasive, squamous metaplasia in, clinical importance of, **250**
—— —— ——, undifferentiated, small cell, morphometric and flow cytometric analysis, **1032**
—— of breast and colorectal cancer, whole blood procoagulant activity in, **489**
—— —— ——, cellularity in, assessment and relation to oestrogen receptor content, **1166**
—— —— ——, cystic, adenoid, immunohistological characterisation of, **470**
—— —— ——, histopathology in young women in relation to use of oral contraceptives, **387**
—— —— —— metastatic to gallbladder, case of (L), **1223**
—— —— ——, monoclonal antibody staining in, critical evaluation of, **810**
—— —— ——, mucinous, oestrogen receptors in, immunohistological study with paraffin wax sections, **902**
—— —— ——, oestrogen and progesterone receptors of, imprint cytology in immunocytochemical analysis of, **1043**
—— —— ——, prostaglandin F2α concentrations in, prognostic value of, **1046**
—— of bronchus, small cell, and bronchial carcinoid tumours,

inability of AgNOR counts to differentiate between (L), **1003**
—— of cervix, glandular and squamous, nucleolar organiser regions and proliferative index in (L), **441**
——, ovarian, monitoring of, combined ELISA for serum placental-like alkaline phosphatase for, **40**
——, pancreatic, serum tissue polypeptide in (L), **555**
——, prevalence of pulmonary embolism at necropsy in patients with, **805**
——, rectal, DNA content measured by flow cytometry in, clinical importance of, **254**
——, squamous cell, associated with giant cell arteritis of tongue (L), **1001**
——, thyroid, papillary, diffuse sclerosing variant of, aberrant expression of HLA-DR antigen in (L), **1309**
Cardiology unit, paediatric, postmortem audit in, **912**
Catheter material, silicone, bacterial adhesion to, and barium sulphate as radio-opacity agent (L), **1226**
CD3 peptide, antibodies against, detection of T cells in paraffin wax embedded tissue using, **1194**
CD15 staining in paraffin wax embedded tissue in Hodgkin's disease, comparative quality assessment, **1096**
CD43 antigen detected in formalin fixed tissue by antibodies MT1, DF-T1 and L60 (Leu-22), **953**
Cerebral infarction, acute phase response in, **63**
Cervical biopsy specimens, histopathological reporting of, observer variability in, **231**
—— epithelium, normal and neoplastic, papillomavirus and *c-myc* antigen expression in, **46**
Cervix, carcinoma of, glandular and squamous, nucleolar organiser regions and proliferative index in (L), **441**
——, sarcoma of, granulocytic, immunohistochemical, histochemical, and ultrastructural study of, **483**
——. *See also* Endocervix
Chemical pathologists, role in advisory on-call service, **1233**
Chemotherapy, lymph node findings in patients with germ cell tumours after, and relation to prognosis, **1049**
Chlamydia, genital, detection of, ELISA (Pharmacia EIA) compared with cell culture and immunofluorescence for, **658**
—— *trachomatis*, detection of, improved sensitivity of enzyme immunoassay (IDEIA) for, **759**
—— ——, rectal carriage in women (L), **1309**
Cholangitis, sclerosing, with hepatic microvesicular steatosis in cystic fibrosis and chronic pancreatitis, 2 cases, **466**
Cholestatic liver disease, chronic, portal lymphadenopathy associated with lipofuscin in, **1160**
Cholesteatoma, underlying, aural polyps as predictors of, **460**
Chromosome 22 abnormalities in Ewing's sarcoma, **797**
Churg-Strauss syndrome, small blood vessel disease in (L), **1001**
Ciliary dyskinesia, primary, and bronchiectasis, orientation of respiratory tract cilia in, **613**
Cirrhosis, advanced, interrelation between factor VII, prekallikrein, and hyperfibrinolysis in, **1246**
——, biliary, primary, pseudohyponatraemia, and hypercholesterolaemia, case of, **167**
Clinical immunology laboratories, complement activation in, time for reappraisal?, **1018**
—— pathologists, early. *See* Waterhouse, Thomas
Clostridium difficile causing diarrhoea in orthopaedic ward, typing of, **511**
Coagulase negative staphylococci, slime production by, detection of, new method for, **872**
Coagulation, UK external quality assessment, first 21 years (*Leading article*), **1**
Coeliac disease, untreated, diamine oxidase plasma concentrations after heparin treatment and jejunal morphometry in, **1136**
Colitis, haemorrhagic, and haemolytic uraemic syndrome, antibodies to *Escherichia coli* 0157 in, **973**
Collagen, type IV, and laminin staining patterns in benign and malignant cutaneous lesions, **1173**
Collagenase digestion of bone marrow trephine biopsy specimens, cell suspensions from, **427**
Colonic cancer and intestinal type gastric cancer, association between, undifferentiated cells in gastrointestinal mucosa inferring (*Abstract of ACP Research Award 1988*), **523**
—— mucosa, phenolic conjugation by, estimation of, **620**
Colorectal adenocarcinoma, bowel resection margins in, routine examination of, justification for?, **1040**
—— cancer and breast cancer, whole blood procoagulant activity in, **489**
—— ——, association between invasiveness, inflammatory reaction, desmoplasia and survival in, **162**
—— polyps, bleeding from, histopathological assessment of, **378**
Complement activation in clinical immunology laboratories, time for reappraisal?, **1018**
—— and immunoglobulins in kidneys at necropsy, immunofluorescence of, **1211**
Computers. *See* Microcomputers
Condoms and safe sex (L), **670**
Contact ulcer (peptic) granuloma of larynx, **800**
Contraceptives, oral, use of, in relation to histopathology of breast cancer in young women, **387**
Coronary artery and saphenous vein bypass grafts, obstructed, immunocytochemical features of, **477**
—— —— stenosis at necropsy, visual aid for quick assessment of (L), **887**
Corrections, **116, 447, 448, 560, 896**
Cortisol, corticosterone, and testosterone in plasma, fluorimetric method for simultaneous estimation of, **661**
Cot death. *See* Infant death syndrome, sudden
Coulter STKR blood counter in detection of abnormalities of differential count, **772**
C-reactive protein and tumour necrosis factor responses in inflammatory and infectious diseases and monitoring of acute phase response, **1078**
Creatine kinase activity in sickle cell disease, **712**
Cryostat sections, morphology and staining improved by use of microwave oven, **101**
Cutaneous lesions, benign and malignant, type IV collagen and laminin staining patterns in, **1173**
Cysts, dentigerous, and odontogenic keratocysts, cytokeratin expression in epithelium of, as aid to diagnosis, **736**
——, odontogenic, fluids from, lactoferrin in, quantitation of, **180**
Cytogenetics, interphase, using biotin and digoxigenin labelled probes in detection of human and papilloma virus nucleic acids in individual nuclei, **601**
——, ——, —— —— —— —— —— ——, —— —— of HPV16 in CaSki cells, **592**
Cytokeratin expression in epithelium of dentigerous cysts and odontogenic keratocysts as aid to diagnosis, **736**
Cytology, exfoliative, quantitative, in assessment of effect of radiotherapy on oral mucosa, **940**
—— specimens, preservation of, new method for, **1101**
Cytomegalovirus and autoimmune liver disease (L), **1310**
—— and Kaposi's sarcoma, aetiological association between, implausibility shown by 4 techniques, **128**
——, antibodies to, in renal allograft recipients, correlation with isolation of virus, **1070**
—— antigens, detection of, and DNA in tissues fixed in formaldehyde, **749**
—— infection in gastrointestinal tract in HIV-1 infection or AIDS, **1055**
—— —— of heart, lack of association with rejection-like inflammation, **81**

Database for identification of *Staphylococcus* species, construction of, **289**
Death certification, increased clinical confidence in diagnosis and lack of interest in necropsy confirmation not justified, **13**
De-Nol. *See* Bismuth subcitrate, colloidal
Dentigerous cysts and odontogenic keratocysts, cytokeratin expres-

sion in epithelium of, as aid to diagnosis, **736**
Diabetes mellitus, glycaemic control in, phagocytic function changes with, **1143**
Diabetic control, association with oral candidiasis, **502**
Dialysis, peritoneal, ambulatory, continuous, detection of Gram negative bacterial peritonitis in recipients of, and limulus amoebocyte lysate assay (L), **1115**
Diamine oxidase plasma concentrations after heparin treatment and jejunal morphometry in untreated coeliac disease, **1136**
Diarrhoea, *Clostridium difficile* causing, in orthopaedic ward, typing of, **511**
Digoxigenin and biotin labelled probes, interphase cytogenetics using, in detection of human and papilloma virus nucleic acids in individual nuclei, **601**
—— —— —— —— ——, —— —— ——, —— —— of HPV16 in CaSki cells, **592**
Diverticula, Meckel's, Campylobacter-like organisms in? (L), **1111**
——, ——, —— organisms in, and heterotopic gastric mucosa, **132**
DNA and detection of cytomegalovirus antigens in tissues fixed in formaldehyde, **749**
—— aneuploidy in sarcoid granuloma (L), **1225**
—— content in rectal cancer measured by flow cytometry, clinical importance of, **254**
——, hepatitis B virus, in serum, detection with synthetic non-radioactive oligonucleotides, **1206**
—— *in situ* hybridisation in detection of *Campylobacter pylori* in stomach tissue, **995**
—— index and karyotype analysis in myelodysplasia, **498**
——, nuclear, quantity in malignancies and benign lymphadenopathies associated with Epstein-Barr virus, **699**
—— of parvovirus B19, detection in fetal tissues by *in situ* hybridisation and polymerase chain reaction, **525**
DNA/RNA analysis and polymerase chain reaction, **673**
Drinkers, heavy, biochemical variables in, correlations with serum proteins modified by acetaldehyde, **295**
Drug resistant. *See* Multidrug resistant
Duodenal gastric heterotopia and *Campylobacter pylori* (L), **1111**
Duodenum, *Campylobacter pylori* infection of, and gastric metaplasia in chronic renal failure, **348**

Elderly residents of chronic care institutions, short term mortality in, biochemical predictors of, **1241**
Electron and light microscopic demonstration of extracellular immunoglobulin deposition in renal tissue, **1104**
ELISA and immunodiffusion tests for antibodies to 4 *Aspergillus* species, comparison of, **1215**
——, combined, for serum placental-like alkaline phosphatase for monitoring ovarian cancer, **40**
—— for detection of total, type I, and type II intrinsic factor antibodies, **307**
—— for measurement of antithrombin III, **985**
—— for *Toxoplasma* IgG, false positive latex tests negative by, **204**
—— —— —— specific IgM antibody, 5 commercial kits, **653**
—— method for diagnosis of Lyme disease, comparison with immunofluorescence, **869**
—— (Pharmacia EIA) for detection of genital chlamydia, comparison with cell culture and immunofluorescence, **658**
ELISAs for detection of IgM antibodies to *Toxoplasma gondii*, comparison of 6 commercial tests, **1285**
Embolism, pulmonary, comparison of clinical and postmortem diagnosis, **135**
——, ——, prevalence at necropsy in cancer patients, **805**
Emphysema, interstitial, association of bronchial gland duct ectasia in fatal bronchial asthma with, **1026**
Endocarditis strains of viridans streptococci, effect of penicillin (L), **1114**
Endocervix, adenocarcinoma *in situ* of, nucleolar organiser regions in, **1276**
Endocrine cells, argyrophil, mucosal, in pernicious anaemia and upper gastrointestinal carcinoid tumours, **371**
Endometrial stromal granulocytes, proliferative activity throughout menstrual cycle and early pregnancy, **35**
Endometriosis, immunoreactive determinants of CA125 in women with, **1272**
Endometrium, human, binding of peroxidase-labelled lectins to, in normal cyclical endometrium and endometrial adenocarcinoma, **140**
Endoscopy, 3 *Campylobacter pylori* antigen preparations for screening sera from patients undergoing, evaluation of, **723**
Enterobacteriaceae, identification of, comparison of API 20E and Sensititre Autoidentification System for, **649**
Enterohaemorrhagic *E coli*. *See* Vero cytotoxin producing *E coli*
Enteropathy, jejunal, associated with HIV infection, quantitative histology of, **275**
Enterotoxin production by *Staphylococcus aureus* strains isolated from clinical specimens (L), **217**
Enzyme histochemical analysis of biopsy specimens, new approach to, **767**
—— immunoassay (IDEIA), improved sensitivity for detection of *Chlamydia trachomatis*, **759**
—— measurements, sequential, within 12 hours of hospital admission in diagnosis of acute myocardial infarction, **1126**
Enzyme-linked immunosorbent assay(s). *See* ELISA(s)
Eosinophilia, angiolymphoid hyperplasia with, aetiological role for immunisation in?, **944**
——, platelet dysfunction with, acquired, 7 adult cases, **950**
Epithelioid haemangioendothelioma of terminal ileum after therapeutic irradiation, case of (L), **889**
Epstein-Barr virus, malignancies and benign lymphadenopathies associated with, quantity of nuclear DNA in, **699**
Erythrocyte autoantibodies, autoimmune haemolysis, and myelodysplastic syndromes, **1088**
—— sedimentation rate, raised, and splenomegaly, splenic haemangioma associated with, case of (L), **1312**
—— —— ——, Seditainer sealed vacuum extraction method for measurement of, evaluation of, **313**
——. *See also* Red cell
Erythroid hypoplasia in myelofibrosis, detection using erythrokinetic studies, **1250**
Erythropoiesis, sideroblastic, acquired, primary, in non-anaemic and minimally anaemic subjects, 6 cases, **56**
Escherichia coli heat labile enterotoxin, detection of, comparison of Y1 mouse adrenal cell and coagglutination assays for, **755**
—— ——, identification of, rapid method for, assessment of (L), **441**
—— ——, Vero cytotoxin producing, infection by, clinical and pathological variability in 5 cases of, **847**
—— —— 0157, antibodies to, in haemorrhagic colitis and haemolytic uraemic syndrome, **973**
—— —— ——, identification of, commercial latex slide test for, evaluation of, **1109**
Ewing's sarcoma, chromosome 22 abnormalities in, **797**
Exercise, pathophysiological effects of, **1121**

Factor VII, prekallikrein, and hyperfibrinolysis in advanced cirrhosis, interrelation between, **1246**
Fat, abdominal, subcutaneous, biopsy specimen for detailed typing of amyloid fibril protein-AL by amino acid sequence analysis, **817**
Femur, proximal, and iliac crest, histomorphometry in normal patients, comparative study, **745**
Fetal tissues, parvovirus B19 DNA in, detection by *in situ* hybridisation and polymerase chain reaction, **525**
Fever, antibiotic resistant, associated with herpes simplex virus infection in neutropenic patients with haematological malignancy, **1255**
Fibrosis, cystic, and chronic pancreatitis, sclerosing cholangitis with hepatic microvesicular steatosis in, 2 cases, **466**
Flow cytometric assessment of follicular tumours of thyroid, reproducibility of, **260**
—— cytometry, DNA content in rectal cancer measured by, clinical importance of, **254**

Fluorescence caused by formaldehyde in pigmented basal cell carcinoma (L), **1002**
Fluorimetric method for simultaneous estimation of cortisol, corticosterone, and testosterone in plasma, **661**
Follicular hyperplasia and follicular lymphoma, differentiation between, AgNORs useful for?, **1267**
—— tumours of thyroid, flow cytometric assessment of, reproducibility of, **260**
Formaldehyde, fluorescence in pigmented basal cell carcinoma caused by (L), **1002**

Gallbladder, breast carcinoma metastatic to, case of (L), **1223**
Gamma irradiated blood samples, unsuitability for haemostatic evaluation of high risk patients (L), **667**
Gastric adenoma, lysozyme and mucins in, **827**
—— ——, ultrastructural study of 2 subtypes of, **352**
—— antibodies, circulating, in pernicious anaemia, longitudinal study of, **1092**
—— antrum, *Campylobacter pylori* infection in biopsy specimens of, laboratory diagnosis and estimation of sampling error, **727**
—— ——, spiral shaped bacteria in, ease positive? (L), **216**
—— biopsy specimens, *Campylobacter* in, cold Ziehl-Neelsen stain for (L), **1309**
—— carcinoma, intestinal type, and carcinoma of colon, association between undifferentiated cells in gastrointestinal mucosa inferring (*Abstract of ACP Research Award 1988*), **523**
—— heterotopia, duodenal, and *Campylobacter pylori* (L), **1111**
—— metaplasia and *Campylobacter pylori* infection of duodenum in chronic renal failure, **348**
—— mucosa, demonstration of *C pylori* and other spiral bacteria in, carbolfuchsin staining for (L), **1004**
—— ——, heterotopic, and Campylobacter-like organisms in Meckel's diverticula, **132**
—— —— in portal hypertension, prevalence of capillary dilatation and *Campylobacter pylori* in, **919**
—— ——, new spiral bacterium ("*Gastrospirillum hominis*") in, **585**
—— outlet obstruction, infiltrative myeloid metaplasia as unusual cause of (L), **1112**
Gastritis, active, and *Campylobacter pylori* colonisation, topographic association between, **834**
——, acute, associated with *Campylobacter pylori* in child (L), **779**
Gastrointestinal diseases, serum tissue polypeptide in (L), **555**
—— epithelium, acid mucins in, demonstration by orcein-alcian blue staining, **881**
—— tract cytomegalovirus infection in HIV-1 infection or AIDS, **1055**
—— —— epithelium and lymph nodes, CAM 5.2 and anti-CD1a reactivity in, association between, **271**
—— ——, upper, carcinoid tumours of, and pernicious anaemia, mucosal argyrophil endocrine cells in, **371**
Genital chlamydia, detection of, ELISA (Pharmacia EIA) compared with cell culture and immunofluorescence for, **658**
Germ cell tumours, testicular, lymph node findings after chemotherapy and relation to prognosis in patients with, **1049**
Giant cell arteritis of tongue associated with squamous cell carcinoma (L), **1001**
Giemsa staining for cysts and trophozoites of *Pneumocystis carinii*, **432**
Glandular and squamous carcinomas of cervix, nucleolar organiser regions and proliferative index in (L), **441**
Globin chain synthesis in reticulocytes from non-thalassaemic and β thalassaemic subjects, effect of isoniazid, **977**
Glutathione S-transferase isoenzymes, distribution in kidney as basis for possible markers of renal injury, **624**
Glycaemic control in diabetes, phagocytic function changes with, **1143**
P-Glycoprotein in multidrug resistant cells, comparison of Western blot analysis and immunocytochemical detection of, **719**
Gonadotrophin releasing hormone, radioimmunoassay for measurement in patients receiving treatment, **542**
Gonococcal infection, class specific antibody response to, **72**
Granular lymphocytic leukaemia, large, splenic pathology in (L), **885**
Granulocyte-macrophage cell culture and staining in soft agar, method for, comparison with standard technique, **1302**
Granulocytes, endometrial stromal, proliferative activity throughout menstrual cycle and early pregnancy, **35**
Granulocytic sarcoma, misleading immunohistological staining with MT1 and S100 protein antibodies, **188**
—— —— of cervix, immunohistochemical, histochemical, and ultrastructural study of, **483**
Granuloma, peptic (contact ulcer), of larynx, **800**
——, sarcoid, DNA aneuploidy in (L), **1225**

Haemangioendothelioma, epithelioid, of terminal ileum after therapeutic irradiation, case of (L), **889**
Haemangioma, sclerosing, of lung, pulmonary adenoma as variant of, case of (L), **1222**
——, splenic, associated with splenomegaly and raised erythrocyte sedimentation rate, case of (L), **1312**
Haematocrit readings, parallax error in, elimination using reflexion haematocritometry (L), **888**
Haematological and biochemical measurements in serum, diurnal variations in, **172**
—— anomalies, prevalence in asymptomatic HIV infection (L), **777**
—— disease, carriage of *Candida* spp and *C albicans* biotypes in patients undergoing chemotherapy or bone marrow transplantation for, **1259**
—— malignancy, herpes simplex virus infection in neutropenic patients with, antibiotic resistant fever associated with, **1255**
Haemochromatosis, idiopathic, in north Portugal, association with haplotype A3B7 (L), **667**
Haemolysis, autoimmune, erythrocyte autoantibodies, and myelodysplastic syndromes, **1088**
Haemolytic uraemic syndrome and haemorrhagic colitis, antibodies to *Escherichia coli* 0157 in, **973**
Haemophilia, lupus anticoagulant, anticardiolipin antibodies, and HIV in, **629**; *Erratum*, **896**
—— patients at risk of HIV infection, cellular infiltrates of tuberculin tests in, histometric studies on, **184**
Haemophilus influenzae, non-serotypable strains of, outer membrane protein and biotype analysis, **409**
—— —— type b, β-lactamase producing, case of aortitis caused by (L), **438**
Haemorrhage from polyps of colon and rectum, histopathological assessment of, **378**
Haemorrhagic colitis and haemolytic uraemic syndrome, antibodies to *Escherichia coli* 0157 in, **973**
—— necrosis, massive, of liver after liver transplantation, **360**
Haemostatic evaluation of high risk patients, unsuitability of gamma irradiated blood samples for (L), **667**
Head injury, fatal, in children, brain damage in, **18**
Heart and heart-lung transplant recipients, toxoplasmosis in, **194**
——, cytomegalovirus infection of, lack of association with rejection-like inflammation, **81**
Heparin treatment, diamine oxidase plasma concentrations after, and jejunal morphometry in untreated coeliac disease, **1136**
Hepatic microvesicular steatosis, sclerosing cholangitis with, in cystic fibrosis and chronic pancreatitis, 2 cases, **466**
Hepatitis B, distribution of HBcAg detected by immunoperoxidase staining with 3 different preparations of anti-HBc antibodies in, **284**
—— —— virus DNA in serum, detection with synthetic non-radioactive oligonucleotides, **1206**
—— —— —— sequences from liver tumour DNA and from paraffin wax embedded tissues, *in vitro* amplification using polymerase chain reaction, **840**
—— B-DNA replication and histological patterns in liver biopsy specimens of chronic HBsAg positive patients with and without hepatitis delta virus superinfection, **689**
Hepatocellular carcinoma, DNA from, HBV sequences from, *in vitro* amplification using polymerase chain reaction, **840**

Herpes simplex virus infection in neutropenic patients with haematological malignancy, antibiotic resistant fever associated with, **1255**
Histamine synthesis by respiratory tract micro-organisms, possible role in pathogenicity, **516**
Histomorphometric estimates across different sites of iliac crest, variation in, **814**
Histopathological reporting of cervical biopsy specimens, observer variability in, **231**
Histopathology, external assessment in, overview of, **1009**
HIV infected patients, antigenaemia and antibody response in, patterns according to clinical state, **282**
—— infection, asymptomatic, prevalence of haematological anomalies in (L), **777**
—— ——, haemophiliacs at risk of, cellular infiltrates of tuberculin tests in, histometric studies on, **184**
—— ——, jejunal enteropathy associated with, quantitative histology of, **275**
——, lupus anticoagulant, and anticardiolipin antibodies in haemophilia, **629**; *Erratum*, **896**
—— positive tissue, application of betapropiolactone method for disinfection of fresh tissue without impairment of antigenicity to, **318**
HIV-1 infection or AIDS, cytomegalovirus infection in gastrointestinal tract in, **1055**
HLA haplotype A3B7, association with idiopathic haemochromatosis in north Portugal (L), **667**
HLA-DR antigen, aberrant expression in diffuse sclerosing variant of papillary carcinoma of thyroid (L), **1309**
Hodgkin's and non-Hodgkin's lymphoma in same patient (L), **440**
—— disease, CD15 staining in paraffin wax embedded tissue in, comparative quality assessment, **1096**
—— ——, hypercalcaemia without hyperparathyroidism or skeletal metastases in, case of (L), **219**
HTLVI, prevalence in Zimbabwe, pilot survey (L), **669**
Human immunodeficiency virus. *See* HIV
—— T cell leukaemia/lymphoma virus I. *See* HTLVI
Hyaluronidase production in *Streptococcus milleri* in relation to infection, **506**
Hybridisation *in situ* and polymerase chain reaction in detection of parvovirus B19 DNA in fetal tissues, **525**
—— techniques in diagnosis of progressive multifocal leucoencephalopathy, **153**; *Erratum*, **896**
Hypercalcaemia in Hodgkin's disease without hyperparathyroidism or skeletal metastases, case of (L), **219**
——, retroperitoneal myxoid liposarcoma presenting with, case of (L), **330**
Hypercholesterolaemia, pseudohyponatraemia, and primary biliary cirrhosis, case of, **167**
Hyperfibrinolysis, factor VII, and prekallikrein in advanced cirrhosis, interrelation between, **1246**
Hyperplasia, atypical, in prostates of 20 to 40 year old men, **383**
Hypertension, portal, gastric mucosa in, prevalence of capillary dilatation and *Campylobacter pylori* in, **919**
Hypothyroidism as factor in differential diagnosis with raised serum transaminases (L), **1226**
Hypotonic stress, platelet response to, microtitre plate measurement of, **1298**

Ileum, terminal, epithelioid haemangioendothelioma of, after therapeutic irradiation, case of (L), **889**
Iliac crest and proximal femur histomorphometry in normal patients, comparative study, **745**
—— ——, histomorphometric estimates across different sites of, variation in, **814**
Immune complexes, circulating, after splenectomy, **69**
Immunisation, aetiological role in angiolymphoid hyperplasia with eosinophilia for?, **944**
Immunoalkaline phosphatase technique. *See* APAAP technique
Immunochemistry, use in Britain assessed from EQA Forum antibody usage questionnaire, **1012**
Immunocytochemical detection of P-glycoprotein in multidrug resistant cells, comparison with Western blot analysis, **719**
—— features of obstructed saphenous vein coronary artery bypass grafts, **477**
—— techniques in cytological diagnosis of neoplastic effusions, evaluation of impact, **1184**
Immunocytochemistry, comparative quality assessment in, feasibility of, **1096**
Immunodiffusion and ELISA for antibodies to 4 *Aspergillus* species, comparison of, **1215**
Immunofluorescence for diagnosis of Lyme disease, comparison with ELISA method, **869**
—— of immunoglobulins and complement in kidneys at necropsy, **1211**
Immunoglobulin G antibody to *Toxoplasma*, latex tests for, false positives negative by ELISA, **204**
—— M antibodies to *Toxoplasma gondii*, ELISAs for detection of, comparison of 6 commercial tests, **1285**
—— —— ——, *Toxoplasma* specific, ELISA for, 5 commercial kits, **653**
—— —— ——, —— ——, IgM immunosorbent agglutination assay for detection of, assessment of, **1291**
—— —— antibody to *Toxoplasma*, biotin-labelled antigen screening test for, **206**
Immunoglobulins and complement in kidneys at necropsy, immunofluorescence of, **1211**
——, extracellular, deposition in renal tissue, light and electron microscopic demonstration of, **1104**
Immunogold staining and biotinylated synthetic oligonucleotide probes in detection of human papilloma viruses in paraffin wax sections, **988**
Immunohistological characterisation of adenoid cystic carcinoma of breast, **470**
—— demonstration of *Salmonella virchow* in case of infant death (L), **329**
—— localisation of staphylococcal toxic shock syndrome toxin antigen in sudden infant death syndrome, **935**
—— study of oestrogen receptors in mucinous breast carcinoma with paraffin wax sections, **902**
Immunolocalisation of α interferon in liver disease, **1065**
Immunology, clinical. *See* Clinical immunology
Immunoperoxidase detection of membrane antigens in frozen sections, improved method for, **875**
—— staining of axons for frozen section diagnosis of nerve biopsy specimens, **551**
—— —— with 3 different preparations of anti-HBc antibodies for detection of distribution of HBcAg in hepatitis B, **284**
Immunoreactive determinants of CA 125 in women with endometriosis, **1272**
Immunosorbent agglutination assay, IgM, for detection of *Toxoplasma* specific IgM, assssment of, **1291**
Immunostaining of peripheral blood for differentiation of Bernard-Soulier syndrome and immune thrombocytopenia, **1296**
Imprint cytology in immunocytochemical analysis of oestrogen and progesterone receptors of breast carcinoma, **1043**
Infant death syndrome, sudden, brown adipose tissue activity in pyrexial cases of, **1153**
—— —— ——, ——, staphylococcal toxic shock syndrome toxin antigen in, immunohistological localisation of, **935**
Infections in British clinical laboratories (1986-87), **677**
Inflammatory and infectious diseases, tumour necrosis factor and C-reactive protein responses in, and monitoring of acute phase response, **1078**
α Interferon in liver disease, immunolocalisation of, **1065**
Intestinal microsporidiosis, diagnosis in AIDS patients (L), **885**
Intestine. *See* Bowel
Intrinsic factor antibodies, total, type I, and type II, ELISA for detection of, **307**
—— —— antibody tests, **210**

Ischaemia of calves, controlled, leucocyte behaviour in, **1083**
Isoniazid, effect on globin chain synthesis in reticulocytes from non-thalassaemic and β thalassaemic subjects, **977**

Jejunal enteropathy associated with HIV infection, quantitative histology of, **275**
Jejunum, morphometry, and diamine oxidase plasma concentrations after heparin treatment in untreated coeliac disease, **1136**

Kaposi's sarcoma and cytomegalovirus, aetiological association between, implausibility shown by 4 techniques, **128**
Karyotype analysis and DNA index in myelodysplasia, **498**
Keratocysts, odontogenic, and dentigerous cysts, cytokeratin expression in epithelium of, as aid to diagnosis, **736**
Kidneys at necropsy, immunoglobulins and complement in, immunofluorescence of, **1211**

Lysozyme and mucins in gastric adenomas, **827**

Malignancies and benign lymphadenopathies associated with Epstein-Barr virus, quantity of nuclear DNA in, **699**
Malignancy, haematological, herpes simplex virus infection in neutropenic patients with, antibiotic resistant fever associated with, **1255**
Marathon running, pathophysiological effects of, **1121**
Marrow. *See* Bone marrow
Meckel's diverticulum, Campylobacter-like organisms in? (L), **1111**

—— ——, —— organisms in, and heterotopic gastric mucosa, **132**
Medical audit in clinical medicine and other specialties, necropsy in (*Summary of paper*), **564**
—— —— in USA (*Summary of paper*), **562**
Megakaryocytes in paraffin wax embedded bone marrow biopsy specimens, monoclonal anti-actin as marker of, **982**
Membrane antigens, immunoperoxidase detection in frozen sections, improved method for, **875**
Meningioma, recurrence of, prediction of, value of AgNOR method (L), **1002**
Meningitis, lymphomatous, false positive bromide partition test in case of (L), **113**
Meningococcal disease, investigation of (*ACP Broadsheet* 121), **634**
Menstrual cycle and early pregnancy, proliferative activity in endometrial stromal granulocytes throughout, **35**
Metabolism, inborn errors of, diagnosis in district general hospitals, guide to (*ACP Broadsheet*, 120), **84**; *Errata*, **447, 448**
Metaplasia, squamous, in invasive transitional cell carcinoma of bladder, clinical importance of, **250**
Microbiology. *See* Bacterial
Microcomputers, statistics on, non-algebraic guide to use: 4, Correlation and regression, **4**
——, —— ——, —— —— —— ——: 5, Analysis of categorical data, **117**
——, —— ——, —— —— —— ——: 6, Statistical methods for diagnostic tests, **225**
Microsporidiosis, intestinal, diagnosis in AIDS patients (L), **885**
Microtitre plate measurement of platelet response to hypotonic stress, **1298**
Microwave oven, morphology and staining of cryostat sections improved by use of, **101**
Milk, artificially contaminated, survival of *Campylobacter pylori* in (L), **778**
Monoclonal antibodies for detection of bone marrow invasion by neuroblastoma, **422**
—— —— MT1, DF-T1 and L60 (Leu-22), molecule (CD43 antigen) detected in formalin fixed tissue by, **953**
—— antibody, anti-bromo-deoxyuridine, *in situ* demonstration of tissue proliferative activity using, **820**
—— —— (KP1) in detection of monocyte/macrophage associated antigen in tissue sections, **414**
—— —— staining in breast carcinoma, critical evaluation of, **810**
Monocyte/macrophage associated antigen, detection by monoclonal antibody (KP1) in tissue sections, **414**
Morphometric and flow cytometric analysis of small cell undifferentiated carcinoma of bladder, **1032**
Mortality, short term, in elderly residents of chronic care institutions, biochemical predictors of, **1241**
Mucinous breast carcinoma, oestrogen receptors in, immunohistological study with paraffin wax sections, **902**
Mucins, acid, in gastrointestinal epithelium, demonstration by orcein-alcian blue staining, **881**
—— and lysozyme in gastric adenomas, **827**
Mucosa, antral, lymphoid follicles in, immune response to *Campylobacter pylori?* **1269**
——, colonic, phenolic conjugation by, estimation of, **620**
——, gastric, demonstration of *C pylori* and other spiral bacteria in, carbolfuchsin staining for (L), **1004**
——, ——, in portal hypertension, prevalence of capillary dilatation and *Campylobacter pylori* in, **919**
——, ——, new spiral bacterium (*'Gastrospirillum hominis'*) in, **585**
——, oral, effect of radiotherapy assessed by quantitative exfoliative cytology, **940**
Multidrug resistant cells, P-glycoprotein in, comparison of Western blot analysis and immunocytochemical detection of, **719**
Mutational theory of leukaemogenesis, **337**
c-myc and papillomavirus antigen expression in normal and neoplastic cervical epithelium, **46**
—— oncogene product $P62^{c\text{-}myc}$ in ovarian mucinous neoplasms, immunohistochemical study correlated with malignancy, **148**
N-*myc* gene product expression in neuroblastoma, **52**
—— oncogene amplification in neuroblastomas, histopathological, DNA ploidy, and clinical variables, **1148**
Mycology, UK national scheme for external quality assessment for, **531**
Myelodysplasia, DNA index and karyotype analysis in, **498**
Myelodysplastic syndromes, erythrocyte autoantibodies, and autoimmune haemolysis, **1088**
Myelofibrosis, erythroid hypoplasia in, detection using erythrokinetic studies, **1250**
Myeloid leukaemia, acute, basophils in, **785**
—— ——, ——, diagnosis of, plastic-embedded core biopsy as complement to bone marrow aspiration for, **300**
—— metaplasia, infiltrative, as unusual cause of gastric outlet obstruction (L), **1112**
Myeloma, lambda chain, non-secretory, multiple (L), **556**
——, renal impairment in, negative association with isoelectric point of excreted Bence-Jones protein, **59**
Myelomatosis, bulky extramedullary plasmacytomata as rare mode of relapse in, 2 cases, **246**
Myocardial infarction, acute, diagnosis from sequential enzyme measurements within 12 hours of hospital admission, **1126**
Myxoid liposarcoma, retroperitoneal, presenting with hypercalcaemia, case of (L), **330**

Necropsies in audit in clinical medicine and other medical specialties (*Summary of paper*), **564**
—— in clinical audit, **897**
——, quality assurance programme for, **1190**
Neoplasms, mucinous, ovarian, *c-myc* oncogene product $P62^{c\text{-}myc}$ in, immunohistochemical study correlated with malignancy, **148**
Neoplastic effusions, immunocytochemical techniques in cytological diagnosis of, evaluation of impact, **1184**
Nerve biopsy specimens, frozen section diagnosis of, immunoperoxidase staining of axons for, **551**
Neuroblastoma invasion of bone marrow, detection of, monoclonal antibodies for, **422**
——, *N-myc*, amplification in, histopathological, DNA ploidy, and clinical variables, **1148**
——, ——, gene product expression in, **52**
Neutropenia and haematological malignancy, herpes simplex virus infection in patients with, antibiotic resistant fever associated with, **1255**
Nose and paranasal sinuses, aspergillosis of, case of, **123**
Notices, **116, 224, 336, 447, 560, 672, 784, 1008, 1120, 1232, 1318**
Nucleolar organiser region(s), argyrophilic. *See* AgNOR(s)

Odontogenic cyst fluids, lactoferrin in, quantitation of, **180**
—— keratocysts and dentigerous cysts, cytokeratin expression in epithelium of, as aid to diagnosis, **736**
Oestrogen and progesterone receptors of breast carcinoma, imprint cytology in immunocytochemical analysis of, **1043**
—— receptors, content in breast carcinoma, relation to cellularity, **1166**
—— —— in mucinous breast carcinoma, immunohistological study with paraffin wax sections, **902**
Oligonucleotide probes, synthetic, biotinylated, and immunogold staining in detection of human papilloma viruses in paraffin wax sections, **988**
Oligonucleotides, non-radioactive, synthetic, in detection of HBV DNA in serum, **1206**
Oncogenes. *See c-myc*; N-*myc*
Oral mucosa, effect of radiotherapy assessed by quantitative exfoliative cytology, **940**
—— white lesions and lichen planus, morphometric analysis of suprabasal cells in, **264**
Orcein-alcian blue staining for demonstration of acid mucins in gastrointestinal epithelium, **881**
Osteoporosis, bone histology in young adults with, **391**
Ovarian cancer, monitoring of, combined ELISA for serum placental-

like alkaline phosphatase for, **40**
—— mucinous neoplasms, *c-myc* oncogene product P62$^{c\text{-}myc}$ in, immunohistochemical study correlated with malignancy, **148**
—— tumours, serous and mucinous, diagnosis of, AgNORs in (L), **1311**

Paediatric cardiology unit, postmortem audit in, **912**
Pancreas, percutaneous fine needle aspiration cytology of, advantages and pitfalls, **341**
Pancreatic cancer, serum tissue polypeptide in (L), **555**
Pancreatitis, acute, severity of, low proteinuria early predictor of?, **1132**
——, chronic, and cystic fibrosis, sclerosing cholangitis with hepatic microvesicular steatosis in, 2 cases, **466**
Papillary carcinoma of thyroid, diffuse sclerosing variant of, aberrant expression of HLA-DR antigen in (L), **1309**
Papilloma virus and *c-myc* antigen expression in normal and neoplastic cervical epithelium, **46**
—— ——, detection of human and viral nucleic acids in individual nuclei, interphase cytogenetics using biotin and digoxigenin labelled probes in, **601**
—— ——, —— of HPV16 in CaSki cells, interphase cytogenetics using biotin and digoxigenin labelled probes in, **592**
—— viruses, human, detection in paraffin wax sections with biotinylated synthetic oligonucleotide probes and immunogold staining, **988**
Papillomatosis, laryngeal, correlation between severity of disease and HPV 6 and 11 detected by *in situ* DNA hybridisation, **694**
Paranasal sinuses and nose, aspergillosis of, case of, **123**
Parvovirus B19 DNA, detection in fetal tissues by *in situ* hybridisation and polymerase chain reaction, **525**
Pathologists, chemical. *See* Chemical pathologists
——, clinical, early. *See* Waterhouse, Thomas
Pathology, laboratory accreditation and audit in (*Summary of Meeting*), **561**
—— standards in UK, maintenance of (*Summaries of papers*), **561, 562**
Pathophysiological effects of exercise, **1121**
Peliosis thymomis associated with tuberculosis, case of (L), **331**
Penicillin, effect on endocarditis strains of viridans streptococci (L), **1114**
——, tolerance to, in streptococci of viridans group, **77**
Peptic (contact ulcer) granuloma of larynx, **800**
Peritoneal washing and serous effusion specimens, lectin binding properties of cells from, **1178**
Peritonitis, bacterial, Gram negative, detection in recipients of CAPD and limulus amoebocyte lysate assay (L), **1115**
Phagocytic function changes with glycaemic control in diabetes, **1143**
Pharynx and larynx, squamous tumours of, nucleolar organiser regions in (L), **218**
Phenol, conjugation by colonic mucosa, estimation of, **620**
Pilonidal sinuses, infected, microbiology of, **1140**
Placental-like alkaline phosphatase (PLAP) in serum in combined ELISA for monitoring ovarian cancer, **40**
Plasma, cortisol, corticosterone, and testosterone in, fluorimetric method for simultaneous estimation of, **661**
—— diamine oxidase concentrations after heparin treatment and jejunal morphometry in untreated coeliac disease, **1136**
Plasmacytomata, extramedullary, bulky, as rare mode of relapse in myelomatosis, 2 cases, **246**
Plastic-embedded core biopsy as complement to bone marrow aspiration for diagnosis of acute myeloid leukaemia, **300**
Platelet aggregation, abnormal, in Raynaud's phenomenon, **716**
—— dysfunction with eosinophilia, acquired, 7 adult cases, **950**
—— function, measurable, in healthy subjects, effect of therapeutic propranolol not significant, **793**
—— —— testing (*ACP Broadsheet*, **122**), **858**
—— response to hypotonic stress, microtitre plate measurement of, **1298**
Pneumocystis carinii, antibody to, testing for, **865**
—— ——, cysts and trophozoites of, Giemsa staining for, **432**
Pneumonia, respiratory syncytial virus, case of (L), **1224**
Polymerase chain reaction and DNA/RNA analysis, **673**
—— —— —— and *in situ* hybridisation in detection of parvovirus B19 DNA in fetal tissues, **525**
—— —— ——, *in vitro* amplification of HBV sequences from liver tumour DNA and from paraffin wax embedded tissues using, **840**
Polyps, aural, as predictors of underlying cholesteatoma, **460**
—— of colon and rectum, bleeding from, histopathological assessment of, **378**
Portal hypertension, gastric mucosa in, prevalence of capillary dilatation and *Campylobacter pylori* in, **919**
—— lymphadenopathy associated with lipofuscin in chronic cholestatic liver disease, **1160**
Postmortem audit in paediatric cardiology unit, **912**
—— rooms, bacteriological sampling of, **682**
Pregnancy, early, and menstrual cycle, proliferative activity in endometrial stromal granulocytes throughout, **35**
——, syphilis in, serological screening tests for, results of Oxford region study (1983–87), **1281**
Prekallikrein, factor VII, and hyperfibrinolysis in advanced cirrhosis, interrelation between, **1246**
Progesterone and oestrogen receptors of breast carcinoma, imprint cytology in immunocytochemical analysis of, **1043**
Propranolol, therapeutic, effect on measurable platelet function in healthy subjects not significant, **793**
Prostaglandin F2α concentrations in breast carcinoma, prognostic value of, **1046**
Prostates of 20 to 40 year old men, atypical hyperplasia in, **383**
Prostatic androgen receptors, microassay for, correlation with quantitative histological assessment, **322**
Protein profiles in identification of *Acinetobacter calcoaceticus* in respiratory care unit, **853**
Proteins, acute phase, response in cerebral infarction, **63**
——, serum, modified by acetaldehyde, correlations with biochemical variables in heavy drinkers, **295**
Proteinuria, low, early predictor of severity of acute pancreatitis?, **1132**
Prothrombin time test in NEQAS surveys, effect of automation, **97**
—— —— testing, effect of thromboplastin international sensitivity index on precision of international normalised ratios in, **92**
Pseudohyponatraemia, hypercholesterolaemia, and primary biliary cirrhosis, case of, **167**
Pseudomembranous trigonitis of bladder, hormonal aetiology, **922**
Pseudomonas spp, identification of, API-20NE and Sensititre Autoidentification systems for (L), **1113**
—— *pseudomallei*, identification in clinical practice by screening tests and API 20NE, **645**
Pulmonary adenoma as variant of sclerosing haemangioma of lung, case of (L), **1222**
—— embolism, comparison of clinical and postmortem diagnosis, **135**
—— ——, prevalence at necropsy in cancer patients, **805**
Pyrexial cases of cot death, brown adipose tissue activity in, **1153**

Quality assessment, comparative, in immunocytochemistry, feasibility of, **1096**
—— ——, external, in histopathology, overview of, **1009**
—— ——, ——, UK National Scheme, for mycology, **531**
—— ——, ——, —— —— ——, in blood coagulation, first 21 years (*Leading article*), **1**
—— ——, ——, —— —— ——, prothrombin time test in surveys for, effect of automation, **97**
—— assurance programme for necropsies, **1190**
—— —— programmes, role in accreditation and audit (*Summary of paper*), **563**

Radioimmunoassay for measurement of gonadotrophin releasing hormone in patients receiving treatment, **542**
Radiotherapy, effect on oral mucosa assessed by quantitative exfoliative cytology, **940**
——, epithelioid haemangioendothelioma of terminal ileum after,

case of (L), **889**
Raynaud's phenomenon, abnormal platelet aggregation in, **716**
Rectal carcinoma, DNA content measured by flow cytometry in, clinical importance of, **254**
—— carriage of *Chlamydia trachomatis* in women (L), **1309**
Rectum and colon, polyps of, bleeding from, histopathological assessment of, **378**
Red cell lithium, measurement of, direct method for, **435**
—— ——. *See also* Erythrocyte
Reflexion haematocritometry, elimination of parallax error in haematocrit readings using (L), **888**
Rejection-like inflammation, lack of association with cytomegalovirus infection of heart, **81**
Renal allografts, antibodies to cytomegalovirus in recipients of, correlation with isolation of virus, **1070**
—— failure, chronic, gastric metaplasia and *Campylobacter pylori* infection of duodenum in, **348**
—— impairment in myeloma, negative association with isoelectric point of excreted Bence-Jones protein, **59**
—— injury, distribution of glutathione S-transferase isoenzymes in kidney as basis for possible markers of, **624**
—— tissue, extracellular immunoglobulin deposition in, light and electron microscopic demonstration of, **1104**
Respiratory care unit, *Acinetobacter calcoaceticus* in, identification using protein profiles, **853**
—— syncytial virus pneumonia, case of (L), **1224**
—— tract cilia, orientation in primary ciliary dyskinesia and bronchiectasis, and in normal subjects, **613**
—— —— micro-organisms, histamine synthesis by, possible role in pathogenicity, **516**
Reticulocytes from non-thalassaemic and β thalassaemic subjects, globin chain synthesis in, effect of isoniazid, **977**
Retroperitoneal myxoid liposarcoma presenting with hypercalcaemia, case of (L), **330**
RNA/DNA analysis and polymerase chain reaction, **673**

Salmonella virchow, immunohistological demonstration in case of infant death (L), **329**
Saphenous vein coronary artery bypass grafts, obstructed, immunocytochemical features of, **477**
Sarcoid granuloma, DNA aneuploidy in (L), **1225**
Sarcoma, Ewing's, chromosome 22 abnormalities in, **797**
——, granulocytic, misleading immunohistological staining with MT1 and S100 protein antibodies, **188**
—— of cervix, granulocytic, immunohistochemical, histochemical, and ultrastructural study of, **483**
Sclerosing lesions, benign and malignant, of extrahepatic bile ducts, laminin expression in, **927**
Seditainer sealed vacuum extraction method for measurement of erythrocyte sedimentation rate, evaluation of, **313**
Sensititre Autoidentification and API-20NE systems for identification of *Pseudomonas* spp (L), **1113**
—— —— System in identification of Enterobacteriaceae, comparison with API 20E, **649**
Serological screening tests for syphilis in pregnancy, results of Oxford region study (1983–87), **1281**
Serous effusion and peritoneal washing specimens, lectin binding properties of cells from, **1178**
—— effusions, morphometric diagnosis and refinement of differences between benign and malignant cases, **607**
Serum angiotensin converting enzyme as marker in Lennert's lymphoma (L), **1112**
—— biochemical and haematological measurements, diurnal variations in, **172**
—— HBV DNA, detection with synthetic non-radioactive oligonucleotides, **1206**
—— proteins modified by acetaldehyde, correlations with biochemical variables in heavy drinkers, **295**
—— tissue polypeptide antigen in pancreatic cancer and other gastrointestinal diseases (L), **555**
—— transaminases, raised, hypothyroidism as factor in differential diagnosis with (L), **1226**
Sex, safe, and condoms (L), **670**
Sickle cell disease, creatine kinase activity in, **712**
Sideroblastic erythropoiesis, acquired, primary, in non-anaemic and minimally anaemic subjects, 6 cases, **56**
Signet ring cell lymphoma of T cell type, case of, **239**
Silicone catheter material, bacterial adhesion to, and barium sulphate as radio-opacity agent (L), **1226**
Silver technique, improved, for demonstration of nucleolar organiser regions in paraffin wax sections, **992**
Sinuses, pilonidal, infected, microbiology of, **1140**
Slime production by coagulase negative staphylococci, detection of, new method for, **872**
Small cell carcinoma of bronchus and bronchial carcinoid tumours, inability of AgNOR counts to differentiate between (L), **1003**
—— —— undifferentiated carcinoma of bladder, morphometric and flow cytometric analysis, **1032**
Spleen, haemangioma of, associated with splenomegaly and raised erythrocyte sedimentation rate, case of (L), **1312**
——, pathology in large granular lymphocytic leukaemia (L), **885**
Splenectomy, circulating immune complexes after, **69**
Squamous and glandular carcinomas of cervix, nucleolar organiser regions and proliferative index in (L), **441**
—— cell carcinoma associated with giant cell arteritis of tongue (L), **1001**
—— metaplasia in invasive transitional cell carcinoma of bladder, clinical importance of, **250**
—— tumours of pharynx and larynx, nucleolar organiser regions in (L), **218**
Staphylococcal toxic shock syndrome toxin antigen in sudden infant death syndrome, immunohistological localisation of, **935**
Staphylococci, coagulase negative, slime production by, detection of, new method for, **872**
Statistics on microcomputers, non-algebraic guide to use: 4, Correlation and regression, **4**
—— —— ——, —— —— —— ——: 5, Analysis of categorical data, **117**
—— —— ——, —— —— —— ——: 6, Statistical methods for diagnostic tests, **225**
Stomach tissue, *Campylobacter pylori* in, detection by DNA *in situ* hybridisation, **995**
Streptococci of viridans group, endocarditis strains of, effect of penicillin (L), **1114**
—— —— —— ——, tolerance to penicillin in, **77**
Staphylococcus species, identification of, database for, construction of, **289**
—— *aureus* strains isolated from clinical specimens, enterotoxin production by (L), **217**
—— *milleri* hyaluronidase production in relation to infection, **506**
Syphilis, congenital, umbilical cord sclerosis as indicator of, **1157**
—— in pregnancy, serological screening tests for, results of Oxford region study (1983–87), **1281**

T and B cell lymphoid leukaemia, chronic (mature), classification of, proposals for, **567**
—— cell lymphomas, peripheral, aberrant phenotypes in, **398**
—— —— ——, ——, bone marrow trephine immunotyping in, value of, **403**
—— cells, detection in paraffin wax embedded tissue using anti-CD3 peptide antibodies, **1194**
—— —— expressing $\gamma\delta$ T cell receptor, novel primary thymic defect with, case of, **705**
Testicular germ cell tumours, lymph node findings after chemotherapy and relation to prognosis in patients with, **1049**
Testosterone, cortisol, and corticosterone in plasma, fluorimetric method for simultaneous estimation of, **661**
β Thalassaemia, reticulocyte globin chain synthesis in, effect of isoniazid, **977**
Thrombocytopenia, immune, and Bernard-Soulier syndrome,

differentiation by immunostaining of peripheral blood, **1296**
—— in case of leptospirosis immunologically mediated? (L), **438**
Thromboplastin international sensitivity index, effect on precision of international normalised ratios in prothrombin time testing, **92**
Thymic defect, primary, novel, with T lymphocytes expressing γδ T cell receptor, case of, **705**
Thyroid carcinoma, papillary, diffuse sclerosing variant of, aberrant expression of HLA-DR antigen in (L), **1309**
—— disease associated with angioimmunoblastic lymphadenopathy, 2 cases, **668**
—— nodules, fine needle aspiration of, 3 years' experience, **23**
—— stimulating hormone, undetectable, laboratory based study, **1237**
——, tumours of, follicular, flow cytometric assessment of, reproducibility of, **260**
Tissue polypeptide antigen in serum in pancreatic cancer and other gastrointestinal diseases (L), **555**
—— proliferative activity, *in situ* demonstration using anti-bromodeoxyuridine monoclonal antibody, **820**
Tongue, giant cell arteritis of, associated with squamous cell carcinoma (L), **1001**
Toxoplasma IgG, latex tests for, false positives negative by ELISA, **204**
—— IgM antibody, biotin-labelled antigen screening test for, **206**
—— latex agglutination test results, discrepancies in, **200**
—— specific IgM antibodies, ELISA for, 5 commercial kits, **653**
—— —— —— ——, IgM immunosorbent agglutination assay for detection of, assessment of, **1291**
—— *gondii*, antibodies to, direct agglutination test and other assays for, **536**
—— ——, IgM antibodies to, ELISAs for detection of, comparison of 6 commercial tests, **1285**
Toxoplasmosis, diagnosis of, **191**
—— in heart and heart-lung transplant recipients, **194**
Transaminases in serum, raised, hypothyroidism as factor in differential diagnosis with (L), **1226**
Transitional cell carcinoma of bladder, invasive, squamous metaplasia in, clinical importance of, **250**
Transplantation, bone marrow, or chemotherapy for haematological disease, carriage of *Candida* spp and *C albicans* biotypes in patients undergoing, **1259**
—— of liver, massive haemorrhagic necrosis of liver after, **360**
Transplants, heart and heart-lung, toxoplasmosis in recipients of, **194**
Trephine biopsy marrow specimens, collagenase digestion of, cell suspensions from, **427**
—— —— —— ——, immunophenotyping in peripheral T cell lymphoma, value of, **403**
—— instruments used for bone samples for quantitative histomorphometry, comparison of 2 mm and 7 mm diameters, **213**
Trephines from bone marrow, paraffin wax embedded, use of APAAP technique on, **1201**
Trigonitis, pseudomembranous, of bladder, hormonal aetiology, **922**
Trisomy 11 in acute lymphoblastic leukaemia (L), **555**
Tuberculin tests in haemophiliacs at risk of HIV infection, cellular infiltrates of, histometric studies on, **184**
Tuberculosis, peliosis thymomis associated with, case of (L), **331**
Tumour diagnosis, use of basement membrane markers in (*Review*), **449**
—— necrosis factor and C-reactive protein responses in inflammatory and infectious diseases and monitoring of acute phase response, **1078**
Tumours, carcinoid, bronchial, and small cell carcinoma of bronchus, inability of AgNOR counts to differentiate between (L), **1003**
——, ——, upper gastrointestinal, and pernicious anaemia, mucosal argyrophil endocrine cells in, **371**
——, germ cell, testicular, lymph node findings after chemotherapy and relation to prognosis in patients with, **1049**
—— of thyroid, follicular, flow cytometric assessment of, reproducibility of, **260**
——, ovarian, serous and mucinous, diagnosis of, AgNORs in (L), **1311**
——, squamous, of pharynx and larynx, nucleolar organiser regions in (L), **218**

Umbilical artery, calcification of, 5 cases and 2 distinct lesions, **931**
—— cord sclerosis as indicator of congenital syphilis, **1157**
Urease, spiral shaped bacteria in gastric antrum positive for? (L), **216**
——, ultrastructural localisation in outer membrane and periplasm of *Campylobacter pylori* (L), **778**

Vero cytotoxin producing *E coli* infection, clinical and pathological variability in 5 cases of, **847**
Visual aid for quick assessment of coronary artery stenosis at necrosy (L), **887**

Waterhouse, Thomas (1793–1830), early clinical pathologist, **458**
Western blot analysis for detection of P-glycoprotein in multidrug resistant cells, comparison with immunocytochemical detection, **719**
White cell. *See* Leucocyte
—— lesions and lichen planus, oral, morphometric analysis of suprabasal cells in, **264**

Ziehl-Neelsen stain, cold, for *Campylobacter* in gastric biopsy specimens (L), **1309**
